Sustainability Development in 2Q26 : Sustainable Care for All

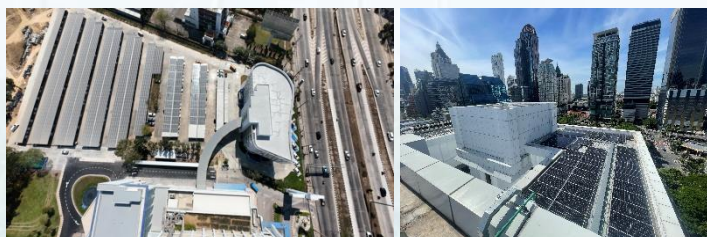

Environment

Integrating eco-efficient practices into healthcare operations for a sustainable environment

■ GHG Reduction & Renewable Energy Transition

In 1H26, scope 1 and 2 GHG emission declined 6.5% YoY to 88,159 tCO₂e.

Renewable energy accounted for 8.3% of total consumption, driven by the expansion of solar rooftop installations across BDMS network to reduce fossil fuel reliance and optimize long-term operational costs.

Social

Advancing equitable access to health and enhancing well-being for all stakeholders

■ LGBTQ+ Cultural Competency Training

Celebrated Pride Month by upskilling physicians, dentists, and staff to deliver equitable, non-discriminatory care and foster an inclusive, safe workplace culture.

■ Community Emergency Preparedness

Delivered 351 hands-on CPR training sessions to 23,510 participants across communities, public/private sectors, and rescue networks, achieving a 97% satisfaction.

Governance

Advancing innovation and governance through integrated risk management.

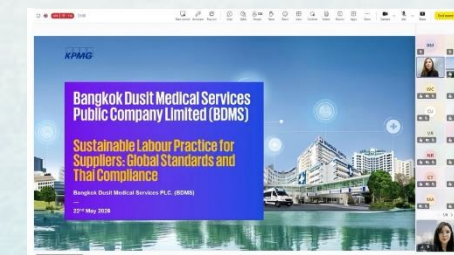

■ Advancing Medical Research & Patient Safety

Published **three medical research papers in international journals** focusing on telomere length for Precision Medicine, diagnostic error analysis in lab processes, and LDCT lung cancer screening for early detection.

■ Supply Chain Labor Governance & Human Rights

Engaged 100% of critical suppliers (170 key partners) on sustainable labor management, international labor standards, Thai laws, and the BDMS Supplier Code of Conduct to mitigate human rights risks across the value chain.
